March Space: Earth, Moon and Sun

This week in the **Infant Center**, we are continuing to celebrate the work of Dr Seuss. We will be concentrating on Seuss-themed group activities and games, and we will learn some new songs based on a few of our favorite books!

The **Toddler Two's Class** will be exploring outer space! We will be reading about astronauts and making spaceships.

Dance Class

This month the movers will work on a new tumbling move! Our tripod (the new move) consists of balancing with three contact points, the hands and head, and involves resting our knees on our elbows. This later develops into a headstand and the tripod will be our focus for the month. After taking a couple months off from ballet, we will review some of our basic terminology and use it in place of our jumping exercises.

Spanish Class

During the month of March, the **Spanish Class** will be learning all about our family members! We will practice saying mi familia as well as learning the words for mother, father, brother, sister and grandparents. Below is a link if you would like to practice with your child at home.
