

Morningstar Learning Center
Admission and Enrollment Priorities
21-22 School Year

At Morningstar (MLC), we do everything we can to accommodate all families who need our services. Growing demand and staff shortages in our area have resulted in a waitlist at MLC ever since the program started. To best serve our community, MLC abides by the following protocol to determine enrollment decisions:

1. Staff children will have priority over non-staff children.
2. Currently enrolled students have priority over new students.
3. New siblings of currently enrolled students have priority over other new students.
4. Full-time students have priority over part-time students.
5. Part-time requests that can be accommodated without shifting other students' schedules will have priority. However, if we are unable to accommodate all requests as submitted, all families who submitted part-time requests will be asked if they are able to change days to help us accommodate everyone. If we are still unable to accommodate all part-time requests after making that effort, priority will be determined based on the other protocol listed here.
6. Locally employed families have priority over non-locally employed families.
7. Year-round residents have priority over seasonal residents.
8. If families meet the same criteria in all of the above categories, families that submit complete enrollment paperwork first will have priority.
